SUMMARY

AI & Automation Engineer building LLM agents, backend services and data pipelines that run unattended in production — Python, FastAPI, Supabase, and the integrations that hold them together under real load.

EXPERIENCE

AI & Automation Engineer, BlueBug

02/2026 — Present | Remote

- Build and own three internal AI and automation products in Python, FastAPI and Supabase
- Review-intelligence system tracking **10,000** products, reconciling **800,000** reviews against **1.1M** snapshots
- Resumable scraping with captcha/TOTP handling, account rotation and retry logic
- Shipped every strategy behind paper validation and two independent safety switches

AI Automation Developer, Upwork (freelance)

06/2024 — Present | Remote

- Delivered **6+** client platforms end to end, first call to launch — Upwork Rising Talent
- Rebuilt a bilingual field-service CRM: **17,000+** records into **17** secured tables, slowest page **5.6s** to **0.56s**
- Inventory and pricing platforms across Amazon, eBay and Shopify covering **25,000+** items
- Wholesale ops platform with GTIN validation and transaction-safe workflows, **162** automated tests

SELECTED PROJECTS

Apply Agent

Python, Supabase, Gemini, GitHub Actions, Telegram, Deno

- Job-search system over **17** public ATS and aggregator sources, scoring each role against a structured CV with an LLM
- Secured a public webhook with a shared secret, chat allowlisting and strict payload validation

Freelancer Meeting Copilot

Python, React/TypeScript, Tauri, SQLite, Ollama, Whisper

- Whisper transcription and Ollama inference run entirely on the user's machine — no call data leaves the laptop
- Scoped retrieval answers only from that client's own notes, with grounding controls that refuse unconfirmed claims

Amazon ASIN & Review Intelligence Platform

Python, Playwright, Supabase, Google Sheets APIs

- Six scraping and auditing tools for ASIN details, review collection, listing health and gap detection
- Synchronised reporting across Supabase and Google Sheets, in the tool operators already used

SKILLS

Backend & APIs Python, FastAPI, REST APIs, Webhooks, Authentication, PostgreSQL, Supabase, SQL
